

OFSAA 3 YEAR-CALENDAR

Bid Process & Policy

Policy:

The Federation office shall, in consultation with the Chairpersons of the Representatives' Council and the Board, will be responsible for maintaining a Three-Year Calendar. It shall list the Associations hosting Federation Championships for the following three (3) school years. It shall be presented at the Annual Meeting.

Procedure:

Associations and member schools may bid to host an OFSAA Championship. There are four application windows each year, with applications due by noon before the scheduled Board of Directors meeting. Once firm bids are received from an association, the OFSAA board of directors will vote to choose the host for the event.

For each application window, the OFSAA office will accept a maximum of one application per championship from each association.

Following the Annual Meeting, the third year will be added to the OFSAA calendar and the Hosting Application Form, at which point applications may be submitted with bids for review at the next OFSAA Board of Directors meeting.

At any time, if multiple bids are received, the OFSAA Board of Directors will vote to choose the event's host based on the considerations listed below.

OFSAA staff shall distribute an updated three-year calendar to member associations after each Board of Directors meeting.

CONSIDERATIONS WHEN REVIEWING BIDS TO HOST OFSAA CHAMPIONSHIPS

General Information

- The convenor named
- Preparatory OFSAA Championship application form submitted All requirements for a bid were included

OFSAA Championship Calendar

- Avoid overloading one Association in one season or one year
- Spread events throughout the province, avoiding an abundance of Championships in the peripheral areas in the same year (especially the Championships involving large numbers)

Previous Hosting of the Same Event

- Give greater priority to schools applying to host an event for the first time, provided their bids are sound.
- Priority should also be given to those Associations that have not hosted the event for an extended period.
